

# MONROE MINUTE

## #1 - Community and Communication

In this survey, we wanted to know a little more about how you want to interact with your schools and your district. Here's what you had to say!

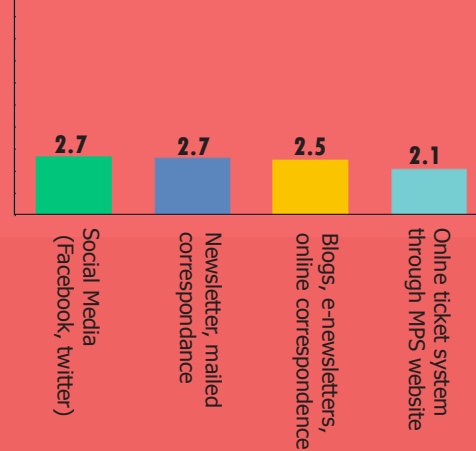

We asked, you answered, and we listened!  
Here's what you had to say  
in last week's **Monroe Minute** survey!

**Q1: Rank in order of importance what you value in your relationship with your student's school.**

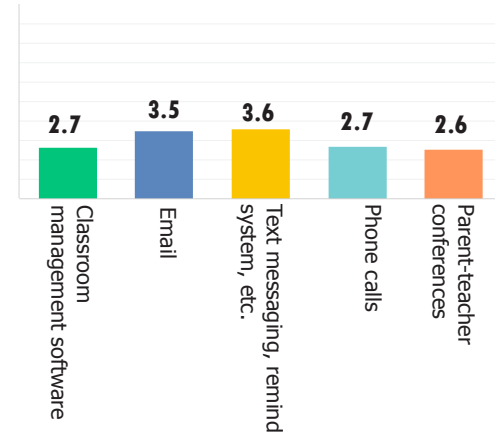

Curriculum offerings, such as AP and CTE offerings, were ranked highly more than any other option, followed by transportation and extra-curricular opportunities.

**Q2: Rank in order what you would value in engaging in communication with Monroe Public Schools.**

Social media correspondence, mailed correspondence, and e-newsletters and online correspondence all ranked very closely. Social media received the highest number of first-place votes.

**Q3: Rank in order of value the following means of communication with your student's teachers.**

Online options for correspondence from teachers, such as text messaging and email, ranked higher than the other options.
