	10	Raisinville Cookies and Canvas

In the past, we have sent out an end of the year survey to our staff, parents, and students. Because it was only once a year, the survey grew to be quite lengthy, and we were not happy with the return rates. With that in mind, Mr. Hoppert launched Monroe Minutes using Survey Monkey. Three different versions were sent out – one for staff, one for parents, and one for students, and we were very pleased with the number of responses and look forward to getting feedback throughout the year. Mr. Hoppert will continue to work with the different departments depending on the focus of the survey.

Mrs. Everly shared an article with Board members from the Monroe News that pertained to DTE and a potential tax reduction.

The School Bell Award has been reinstated and each Board member received a copy of the application.

Monroe Public Schools received an additional instructional time intervention grant in the amount of \$78,120 that can be put towards our K-3 efforts in early literacy.

Board members received information relating to the NSBA Annual Conference. They also received MASB Board of Education Governance Standards. Many boards are reviewing the standards and passing resolutions to adopt these standards as their own.

Mr. Ferrara chaperoned a group of 12th grade students while they attended a Maritime Trades Career Day, which was sponsored by the Monroe Boat Club. Students heard from members of the Coast Guard and Merchant Marines.

Mrs. Everly congratulated Sodexo for successfully completing their resource management review.

Mr. Nuechterlein will host his last Band-O-Rama concert at Monroe High School on October 26. This is a huge concert that involves our instrumental program and highlights a very successful season of our marching band.
